District School Board of Osceola County 817 Bill Beck Boulevard Kissimmee, FL 34744

Dear Chairman, School Board Members, and Citizens of Osceola County:

State law requires that all local governments publish, after the close of each fiscal year, a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) in the United States of America, and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report (CAFR) of the District School Board of Osceola County, Florida (District) for the fiscal year ended June 30, 2014.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The firm of Moore, Stephens, Lovelace, P.A. has audited the District's financial statements. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2014, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded that there was a reasonable basis for rendering an unqualified opinion that the District's basic financial statements for the fiscal year ended June 30, 2014, are fairly presented in conformity with GAAP.

The independent auditors' report is presented as the first component of the financial section of this report.

Superintendent of Schools Melba Luciano The independent audit of the financial statements of the District was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996 and the United States Office of Management and Budget (OMB) Circular A-133, Audits of States, Local Governments and Non-Profit Organizations. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. Information related to this single audit, including the schedule of expenditures of federal awards, findings and questioned costs, summary of prior audit findings, and the independent auditors' reports on the system of internal control and on compliance with applicable requirements, are included in the single audit section.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the independent auditors' report.

PROFILE OF THE GOVERNMENT

The District and its governing board were created pursuant to Section 4, Article IX of the Constitution of the State of Florida. The District is an independent taxing and reporting entity managed, controlled, operated, administered, and supervised by District school officials in accordance with Chapter 1001, Florida Statutes. The Board consists of five elected officials responsible for the adoption of policies, which govern the operation of District public schools. The appointed Superintendent of Schools (Superintendent) is the executive officer of the Board and is responsible for the administration and management of the schools within the applicable parameters of Florida Statutes, State Board of Education Rules, and School Board policies. The Superintendent is also specifically delegated the responsibility of maintaining a uniform system of records and accounts in the District by Section 1010.01, Florida Statutes, as prescribed by the State Board of Education.

The geographic boundaries of the District are those of Osceola County. During fiscal year 2013-14, the District operated 68 schools. Of this number, 46 were K-12 schools including 24 elementary schools, 8 middle schools, 8 high schools, and 6 multilevel schools. In addition, the District sponsored 14 charter schools, 6 alternative schools and 2 adult centers. The District receives the majority of its operating funds through a State funding formula that is intended to equalize funding received from the State and local property tax between districts within the State. Charter schools operating through a contract with the District are provided with their proportionate share of these funds, based upon the number of full-time equivalent students enrolled at the charter school. In fiscal year 2013-14, the District provided general, special, vocational, and other educational programs to 57,252 unweighted full-time equivalent students. The average age of the schools within the District is approximately 22 years. The District does not plan to open any new schools in fiscal year 2014-15.

The Board follows procedures established by Florida Statutes and the State Board of Education rules in establishing and adopting annual budgets for each of the governmental fund types. Budgets are prepared using the same modified accrual basis as is used to account for governmental funds. Appropriations are controlled at the object level (e.g. salaries, benefits, and purchased services) within each function activity (e.g. instruction, pupil personnel services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report.

ECONOMIC CONDITION AND OUTLOOK

Osceola County is part of the Orlando Metropolitan Statistical Area (MSA) along with Orange, Seminole and Lake Counties. According to the Metro Orlando Economic Development Commission (the Commission), Metro Orlando currently has a population of 2.2 million people. The Commission promotes Osceola County as being a world class tourism destination.

According to the United States Census Bureau, the population of Osceola County increased 11.1 percent from 2010 to 2013, as compared to the state of Florida, which increased 4 percent. There were an estimated 298,504 people and 90,413 households residing in the County. The racial makeup of the County was 80 percent white, 13 percent black and 7 percent from other races. Hispanics make up 49 percent of the total population.

Of Osceola County's population, 22.7 percent are 17 and younger, and 13.5 percent are 65 and older. The average household size is 3. The median age in the County is 35.6 years. The median income for a household was \$43,891. The per capita income for the County was \$19,007. Of the 25 and older population, 83.8 percent are high school graduates.

The District recognizes that the continued enhancement of the local economy is of mutual benefit to both the District and the County and that an excellent system of public education is a significant factor in attracting new business and industry to the County. The District remains Osceola County's largest employer, employing 6,979 full and part-time employees, including 3,617 classroom teachers.

MAJOR INITIATIVES

Class Size Reduction Amendment

In November 2002, the voters of Florida amended the State Constitution to limit class size. By the beginning of fiscal year 2010-11, the amendment established the maximum number of students in core-curricula courses assigned to a teacher in each of the following three grade groupings: (1) Pre kindergarten through grade 3, 18 students; (2) grades 4 through 8, 22 students; and (3) grades 9 through 12, 25 students.

The Florida Legislature enacted Senate Bill-30A implementing the reduction of the average number of students in each classroom by at least two students per year, beginning in fiscal year 2003-04 until the maximum number of students per classroom does not exceed the fiscal year 2010-11 maximum. If a district's class size does not meet the constitutional maximum, then the district must reduce the average number of students in each of the three grade groupings by two students until the constitutional maximums are reached. The following is how the constitutional maximums were calculated:

- For fiscal years 2003-04, 2004-05, and 2005-06, class size was calculated at the district level.
- For fiscal years 2006-07 and 2007-08, class size was calculated at the school level.
- Since fiscal year 2008-09, class size has been calculated at the classroom level.

The District complied with this requirement for the 2013-14 and 2014-15 fiscal years.

Student Achievement – Our Number One Priority Districtwide Accreditation by the Southern Association of Colleges and Schools An Equal Opportunity Agency

Capital Outlay Program

During the current fiscal year, the District undertook several construction projects totaling \$29,052,095. These projects included a comprehensive renovation at one high school, the addition of wings at one high school and two elementary schools and renovations to other schools.

Accomplishments

One of the ways to judge a school district is to compare the results of its students on national and statewide testing and the accomplishments of its staff. The District believes that its students and staff have performed well based on various tests and accomplishments as noted below.

School districts throughout Florida are held accountable and receive school grades based on the results of the Florida Comprehensive Assessment Test (FCAT). The fiscal year 2013-14 marks the 15th year of this accountability program and the District continued its tradition of achievement. As of the date of this letter, for elementary, middle, and K-8 public schools 9 received a grade of 'A', 7 received a grade of 'B', 21 received a grade of 'C' and 2 received a grade of 'D'. Results for High Schools are pending. The District received an overall letter grade of 'C'.

FINANCIAL INFORMATION

Internal Controls. Management of the District is responsible for establishing and maintaining internal controls designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Budgetary Controls. The District maintains budgetary controls, the objective of which is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board. Activities of all governmental fund types are included in the annual appropriated budget. Project-length financial plans are adopted for the Capital Projects Funds. The level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the object level.

Budgetary information is integrated into the accounting system, and, to facilitate budgetary control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at year-end, and encumbrances outstanding are honored from the subsequent year's appropriations.

In order to provide budgetary control for salaries, the District utilizes a centralized position control system. On an annual basis, the Board adopts a District staffing plan that establishes teacher positions based generally on student populations served. Additionally, support and administrative positions are created based on established criteria.

Long-Term Financial Planning. For the past few years, the District received substantial revenues from nonrecurring sources that helped offset declines in state funding. These included funds from the American Recovery and Reinvestment Act of 2009 (ARRA), the Education Jobs Fund, and funds from an optional critical needs ad valorem tax levy. Although these revenues have expired, the District was able to accumulate a suitable fund balance reserve to offset future operating deficits. As a result, the District spent down \$5.8 million of its operating fund balance during the 2013-14 fiscal year in order to maintain the same level of operations. The District is projected to continue this trend until the end of the 2014-15 fiscal year. The District's long range projections provide for a balanced budget in the 2015-16 fiscal year.

ACKNOWLEDGEMENTS

The preparation of this report on a timely basis was made possible by the dedicated service of the entire staff of the Finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, we would like to thank the members of the Board for their leadership and support in planning and conducting the financial operations of the District.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

Chairman and Members of The District School Board of Osceola County, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District School Board of Osceola County, Florida (the "District") as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the District's agency funds, which represent 12% of the assets and 47% of the liabilities of the aggregate remaining fund information. In addition, we did not audit the financial statements of the aggregate discretely presented component units, as described in Note 1 to the financial statements, which comprise 100% of the transactions and account balances of the aggregate discretely presented component units of the District. Those financial statements were audited by other auditors, whose reports thereon have been furnished to us and, our opinion, insofar as it relates to the amounts included for the aggregate discretely presented component units, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITOR'S REPORT (Concluded)

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof, and the budgetary comparison for the general fund and major special revenue funds for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Schedules – General and Major Special Revenue Funds on pages 62 - 63, Schedule of Funding Progress – Other Postemployment Benefits Plan, and Notes to Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The introductory section, combining and individual major and non-major fund financial statements and schedules, and statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual major and non-major fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual major and non-major fund financial statements and schedules are fairly stated, in all material respects, in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Chairman and Members of The District School Board of Osceola County, Florida

INDEPENDENT AUDITOR'S REPORT (Concluded)

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 23, 2015, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Osceola County District School Board, Florida (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2014.

Because the information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events, and conditions, it should be considered in conjunction with the District's financial statements found on pages 20 to 59 of this report.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2013-14 fiscal year are as follows:

- Total assets and deferred outflows of the District exceed total liabilities and deferred inflows at the close of the most recent fiscal year by \$556,301,194.
- The District's net position decreased by \$30,070,826 or 5.13 percent from the 2012-13 year.
- At June 30, 2014, the District's combined governmental fund balances totaled \$129,811,173, a decrease of \$21,686,376, or 14.31 percent, in comparison with the prior fiscal year.
- The unassigned fund balance of the General Fund, representing the net current financial resources available for general appropriation by the Board, totals \$33,702,182 at June 30, 2014, or 8.2 percent of total General Fund expenditures.
- The District's total bonded debt (Bonds Payable and Certificates of Participation, excluding premiums and discounts) decreased by \$13,414,000, or 4.99 percent during the current fiscal year. The key factor in this was the payment of principal.
- > The District's net capital assets decreased by \$309,956, or 0.04 percent from the 2012-13 fiscal year.

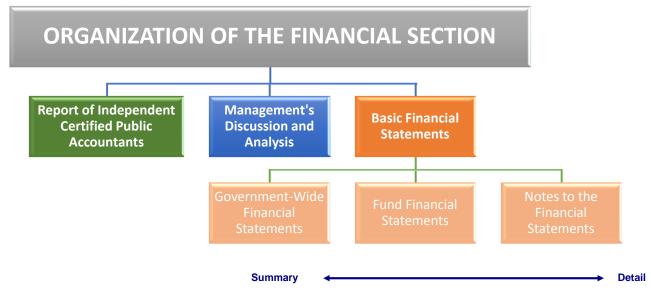

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements.

The District's basic financial statements are comprised of three components:

- Government-wide financial statements.
- Fund financial statements.
- Notes to financial statements.

The illustration below shows how the various parts of the financial section are arranged and relate to one another.

Government-Wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net position and a statement of activities that are designed to provide consolidated financial information about the governmental activities of the primary government presented on the accrual basis of accounting. The statement of net position provides information about the government's financial position, its assets and liabilities, using an economic resources measurement focus. The difference between the assets and liabilities, the net position, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net position, the results of operations, during the fiscal year. An increase or decrease in net position is an indication of whether the District's financial health is improving or deteriorating.

The government-wide statements present the District's activities in two categories:

- Governmental activities This represents most of the District's services, including its educational programs: basic, vocational, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the State's education finance program provide most of the resources that support these activities.
- Component units The District presents eleven separate legal entities in this report, including The Foundation for Osceola Education, Inc., New Dimensions Charter School, Inc., Four Corners Charter School, Inc., New Alternative Education High School of Osceola County, Inc., Acclaim Academy of Florida, Inc., Florida Virtual Academy at Osceola, Renaissance Charter School at Poinciana, UCP Osceola Child Development Center Charter School, Avant Garde Academy, Inc., Bellalago Educational Facilities Benefit District, and Flora Ridge Educational Facilities Benefit District. Although legally separate organizations, the component units are included in this report because they meet the criteria

for inclusion provided by generally accepted accounting principles. Financial information for these component units is reported separately from the financial information presented for the primary government.

The government-wide financial statements can be found on pages 20 and 21 of this report.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the government-wide statements. All of the District's funds may be classified within one of three broad categories as discussed below.

<u>Governmental Funds</u>. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the governmentwide financial statements, governmental funds financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains 13 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the major funds. The District's major funds are the: (1) General Fund, (2) Special Revenue – Federal Economic Stimulus Program Funds, (3) Debt Service – ARRA Economic Stimulus Funds, (4) Capital Projects – Other Fund, and (5) Capital Projects – ARRA Economic Stimulus Funds. Data from the other governmental funds are combined into a single, aggregated presentation.

6

The District adopts an annual appropriated budget for its General Fund, Special Revenue – Federal Economic Stimulus Program Funds, Debt Service – ARRA Economic Stimulus Funds, and Capital Projects – Other Fund. Budgetary comparison schedules have been provided on pages 62 to 66 of this report to demonstrate compliance with the budget.

The basic governmental fund financial statements can be found on pages 22 and 24 of this report.

Proprietary Funds. Proprietary funds may be established to account for activities in which a fee is charged for services. One type of proprietary fund is maintained.

The internal service funds are used to report activities that provide goods and services to support the District's other programs and functions through user charges. The District uses the internal service funds to account for the Health and Life Insurance Trust Fund and Casualty Insurance Loss Fund. Since these services predominantly benefit governmental rather than business-type functions, the internal service funds have been included within governmental activities in the government-wide financial statements.

Proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail. Conversely, the internal service funds are combined into a single, aggregated column in the proprietary fund financial statements.

The basic proprietary fund financial statements can be found on pages 26 to 28 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held in a trustee or fiduciary capacity for the benefit of parties outside the government. The District only has agency funds that are classified as fiduciary funds. Fiduciary funds are not reflected in the government-wide financial statements, because the resources of those funds are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

The District uses agency funds to account for (1) resources held for student activities and groups and (2) for the activities of Bellalago Charter Academy.

The Statement of Assets and Liabilities – Fiduciary Funds can be found on page 29.

Notes to the Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 30 to 59 of this report.

Other Supplemental Information

The combining statements referred to earlier in connection with non-major governmental funds are presented on pages 70 to 95 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceed liabilities by \$556,301,194 at June 30, 2014. The following is a summary of the District's net position as of June 30, 2014, compared to net position as of June 30, 2013:

Net Position, End of Year

| Total Net Position | \$ 556,301,194 | \$ 586,372,020 | |

By far, the largest portion of the District's net position, \$488,609,887 or 87.83 percent, reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to educate the students of Osceola County, Florida; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net position, \$70,723,819 or 12.71 percent, represents resources that are subject to external restrictions on how they may be used. There was a decrease of \$21,178,264 in restricted net position reported in connection with the District's governmental activities. This decrease is primarily due to the reduction of the District's reserve for capital projects. The remaining net position represents resources that are not subject to external restrictions on how they may be used. The balance of unrestricted net position of (\$3,032,512) or (.55) percent is primarily the result of the planned use of beginning fund balance of the General Fund for current year operations.

Revenues by Source - Govermental Activities

Governmental Activities.

Governmental activities decreased the District's net position by \$26,827,345, accounting for the total decrease in the net position of the District. Key elements of the decrease are as follows:

- Unrestricted Net Position decreased by \$19,970,090.
- Restricted Net Position decreased by \$21,178,264.
- Net Investment in Capital Assets, increased by \$11,077,528.

The largest revenue sources are the State of Florida and local sources. Combined, these two revenue sources account for 88 percent of total revenues. Revenues from State sources for current operations are primarily received through the Florida Education Finance Program (FEFP) funding formula. The FEFP formula utilizes student enrollment data, and is designed to maintain equity in funding across all Florida school districts, taking into consideration the District's funding ability based on the local property tax base. Total state sources increased by \$19,826,859 or 7.65 percent primarily due to the increase in FEFP funding. Revenues from local sources consist primarily of ad valorem taxes and impact fees. Property tax revenues increased by \$8.47 million or 6.8 percent, primarily due to the increase in the local property tax base.

Instructional expenses represent 48.9 percent of total governmental expenses in the 2013-14 fiscal year. Instructional expenses increased by \$20,498,715 or 7.63 percent, from the previous fiscal year due to the increase in enrollment, base student allocation, and a new State appropriation for teacher salary increases.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the District's financing requirements. In particular, assigned plus unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds report combined ending fund balances of \$129,811,173, a decrease of \$21,686,376, in comparison with the 2012-13 fiscal year. Unassigned fund balance of \$33,702,182 represents 25.96 percent of the ending fund balances and is available to meet the District's short-term spending needs. Remaining fund balances are non-spendable, restricted, or assigned, to indicate that they are not available for new spending. Inventory balances of \$3,226,549 are considered non-spendable. Fund balances totaling \$78,112,872 are restricted for state required carryover programs, debt service payments, capital projects, other grants and programs, and food service. Fund balances totaling \$14,769,570 are assigned to cover carryover appropriations, special revenue, and a projected operating deficit in the subsequent year.

Major Governmental Funds

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, the assigned plus unassigned fund balance of the General Fund was \$47,077,992, while total fund balance reached \$70,238,145. As a measure of the General Fund's liquidity, it may be useful to compare both assigned plus unassigned fund balance and total fund balance to total expenditures. Assigned plus unassigned fund balance for total General Fund expenditures, while total fund balance represents 17.1 percent of that same amount.

During the current fiscal year, the fund balance of the General Fund decreased by \$5,815,581. This was a planned decrease resulting primarily from a reduction in transfers of ad valorem funds for maintenance activities.

There were no changes to the fund balances for the Special Revenue - Federal Economic Stimulus Funds during the fiscal year since revenue cannot be recognized prior to incurring expenditures.

The fund balance for the Debt Service- ARRA Economic Stimulus Funds increased by \$2,388,789, due to the annually required sinking fund payment beginning in the 2012-13 fiscal year.

There were no changes to the fund balances for the ARRA Economic Stimulus Capital Projects Fund since no qualifying expenditures were incurred during the current fiscal year.

The fund balance for the Other Capital Projects Fund decreased by \$8,012,955. This was a planned decrease in an effort to meet the District's abundant capital needs.

The fund balance for non-major funds – reported as Other Governmental Funds – decreased by \$10,246.629 to \$27,558,205. This is primarily due to certain planned spend-downs as well as the timing differences between collecting funds for and expending these funds on specific projects.

Proprietary Funds

The District's proprietary funds provide the same type of information found in the government-wide financial statements. The District's proprietary fund includes two internal service funds that are used to account for its self-insurance programs. Net position decreased by \$3,108,362 due to insurance claims and other expenses exceeding premiums.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the 2013-14 fiscal year, the District amended its General Fund budget several times, which resulted in a decrease in total budgeted revenues of approximately \$4.8 million, or 1.2 percent. At the same time, final appropriations were less than the original budgeted amounts by approximately \$4.9 million, or 1.1 percent. Budget revisions occurred primarily from changes in estimated State funding levels and corresponding adjustments to planned expenditures to ensure maintenance of an adequate fund balance.

Actual revenues are \$263,839, or .07 percent, less than final budget amounts while actual expenditures are \$24,179,894, or 5.6 percent, less than final budget amounts. The positive variance was primarily due to continued cost containment measures implemented by the District.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District's investment in capital assets for the governmental activities as of June 30, 2014, amounts to \$765,825,589 (net of accumulated depreciation). This investment in capital assets includes land; land improvements; construction in progress; improvements other than buildings; buildings and fixed equipment; furniture, fixtures and equipment; motor vehicles; investments in the educational facilities benefit district; and audio visual materials and computer software. The total decrease in the District's investment in capital assets (net of accumulated depreciation) for the current fiscal year was \$309,956, or a 0.04 percent decrease from the 2012-13 fiscal year.

Major capital asset events during the current fiscal year included the following:

- Completion of classroom reconfiguration at two middle schools, one elementary school, and a high school.
- > Construction in Progress for renovation of cafeteria/admin/media areas at one elementary school.
- Construction in Progress for renovations at two high schools
- Completion of renovations at one high school.
- > Completion of wing additions at one high school and one elementary school.
- > Construction in Progress for wing additions at two elementary schools and one high school.
- > Construction in Progress for the expansion of the technical education center.
- Construction in Progress for major renovations at an administrative annex.

Following is a summary of the District's capital assets as of June 30, 2014, compared to June 30, 2013.

Long-Term Debt

At the end of the current fiscal year, the District's long-term debt principal, excluding premiums and discounts, totals \$269,677,985. Of this amount, \$255,531,000 is outstanding bonded debt, \$10,126,546 is outstanding notes payable, and \$4,020,439 is other long-term debt. Bonded debt constituted the largest portion of long-term debt at the end of the fiscal year and was comprised of \$8,386,000 of bonds issued on behalf of and by the State Board of Education (SBE) and backed by the full faith and credit of the State of Florida; \$60,520,000 outstanding in District Revenue Bonds; and \$186,625,000 in certificates of participation.

Following is a summary of the District's long-term debt as of June 30, 2014, compared to June 30, 2013.

Schedule of Outstanding Long-Term Debt (excluding premiums and discounts)

The District's total debt decreased by \$21,497,177 or 7.38 percent, during the current fiscal year.

Additional information on the District's long term debt can be found in Notes 6 through 11 to the financial statements.

OTHER MATTERS OF SIGNIFICANCE

As of October 2014, the U.S. Bureau of Labor Statistics reports the unemployment rate for Osceola County, Florida, at 6.1 percent. This is a decrease from the rate of 7.4 percent a year ago and is slightly higher than the State's average unemployment rate of 6.0 percent.

During the current fiscal year, assigned plus unassigned fund balance in the General Fund decreased by \$6,000,407 from the prior year (\$53,078,399 to \$47,077,992). This is due to a planned spending of prior fund balance maintained for operations.

REQUESTS FOR INFORMATION

This report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate compliance and accountability for its resources. of this statement.

DISTRICT SCHOOL BOARD OF OSCEOLA COUNTY RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Fiscal Year Ended June 30, 2014

| Net Change in Fund Balances - Total Governmental Funds | ş | (21,686,376) |
|---|--|--------------|
| Amounts reported for governmental activities in the statement of activities are different because: | | |
| Capital outlays are reported in the governmental funds as expenditures. However, in the expense. This is the amount of capital outlays in excess of depreciation expense in the current period. | | |
| Capital outlays net of amounts not capitalized Depreciation Expense | 37,140,629 (38,274,605) | (1,133,976) |
| Capital assets donated to the District increase net position in the government-wide statements, but are not assets donated during the current year. capital assets donated during the current year. | | 959,607 |
| The cost of capital assets disposed of during the current year is expensed in the statement of activities. In the governmental funds, the cost of these assets was recognized as an expenditure in the year purchased. Thus, the change in net position differs from the change in fund balances by the undepreciated cost of the disposed assets. | | (138,334) |
| Proceeds of refunding debt are reported as other financing sources in the governmental funds, while payments to the escrow agent for advance-refunding of outstanding debt are shown as other financing uses. Government-wide statements are affected only to the extent these amounts differ. Other long-term debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. | | |
| Refunding State Board of Education Bonds Issued Payments to Escrow Agent for Refunding Debt Debt Principal Payments | (1,796,000) 1,000,864 16,704,179 | 15,909,043 |
| Premiums and discounts on bonds issued are reported in the governmental funds, in the year the debt is issued, but are deferred and amortized over the life of the debt in the statement of activities. This is the amount in which additions exceed amortization in the current year. | | 443,527 |
| The systematic recognition of the change in Deferred Outflows is not recognized as an expenditure in the fund level statements. In the government-wide statements, it reduces Net Position. | | (719,007) |
| Interest on long-term debt is recognized as an expenditure in the governmental funds when due, but is recognized as interest accrues in the statement of activities. This is the net change in accrued interest. | | 30,113 |
| In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds, expenditures are recognized based on the amounts actually paid for compensated absences. This is the net amount of compensated absences earned in excess of the amount paid in the current period. | | (4,803,365) |
| In the statement of activities, the cost of other post-employment benefits is measured by the increase in the net OPEB obligation during the year, while in the governmental funds, expenditures are recognized based on the amounts actually paid for the OPEB costs. This is the amount of the increase in the OPEB obligation in excess of the amount paid in the current period. | | (6,330,108) |
| Unearned revenues associated with impact fee credits are accrued in the government-wide statements, but are not recognized in the governmental funds. | | (6,250,107) |
| Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. The net revenue of internal service funds is reported with governmental activities. | | (3,108,362) |
| Change in Net Position of Governmental Activities | <u>\$</u> | (26,827,345) |

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees charged to external customers for support. Likewise, the primary government is reported separately from certain legally separated component units for which the primary government is financially accountable. The District has no business-type activities.

The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expense associated with the District's transportation department is allocated to the pupil transportation services function, while remaining depreciation expense are not readily associated with a particular function and are reported as unallocated.

Reporting Entity

The Osceola County School Board (Board) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The Osceola County School District (District) is considered part of the Florida system of public education, operates under the general direction of the Florida Department of Education, and is governed by State law and State Board of Education Rules. The governing body of the District is the Board, which is composed of five elected members. The appointed Superintendent of Schools is the executive officer of the School Board. Geographic boundaries of the District correspond with those of Osceola County.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any entities for which the Board is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading. Based on the application of these criteria, the following component units are included within the District's reporting entity:

<u>Blended Component Units</u>. The District's employee group health and life insurance program, described in Note 20, is administered through the Osceola County District School Board Group Health and Life Insurance Trust (Trust). Assets necessary to fund the program are transferred to the Trust; however, under the terms of the Trust agreement, the District retains control of the assets. Therefore, the financial activities of the Trust are reported in the District's financial statements. Separate financial statements for the Trust are not published.

The Osceola School Board Leasing Corporation, Inc. (Leasing Corporation) was formed to facilitate financing for the acquisition of facilities and equipment. The governing board of the Leasing Corporation is the Board. Due to the substantive economic relationship between the District and the Leasing Corporation, the financial activities of the Leasing Corporation are

included in the accompanying basic financial statements. Separate financial statements for the Leasing Corporation are not published.

<u>Discretely Presented Component Units</u>. The component unit columns in the government-wide financial statements include the financial data of the District's other component units. A separate column is used to emphasize that they are legally separate from the District.

The Foundation for Osceola Education, Inc., is a separate not-for-profit corporation organized and operated as a direct-support organization under Section 1001.453, Florida Statutes, to provide charitable and educational aid to the Board, to promote education, and to encourage research, learning, and dissemination of information. Because of the nature and significance of its relationship with the District, the Foundation is considered a component unit. An annual audit of the organization's financial statements is conducted by an independent certified public accountant and is filed in the District's administrative office.

The Bellalago Educational Facilities Benefit District and the Flora Ridge Educational Facilities Benefit District (Benefit Districts) are separate districts organized pursuant to Chapter 125, Florida Statutes, and Section 1013.355, Florida Statutes, to provide for the timely construction and maintenance of school facilities. The Benefit Districts are an alternate mechanism that allows for the sharing of educational facilities costs that are necessary to accommodate new growth and development. The Benefit Districts have imposed a specific financial burden on the Osceola County School District and are considered fiscally dependent in accordance with the criteria described in Governmental Accounting Standards Board *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. A member of the Osceola County School District has been appointed to the board of each Benefit District. Audits of the Benefit District's annual financial statements are conducted by an independent certified public accountant and are filed in the District's administrative office.

Four Corners Charter School, Inc., Acclaim Academy Florida, Inc., Avant Garde Charter School, Florida Virtual Charter Academy at Osceola, iVirtual League Academy, Mavericks High School of Osceola County, New Dimensions High School, Inc., Renaissance Charter School at Poinciana, and UCP Osceola Charter School, are separate not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not for Profit Corporation Act; and Section 1002.33, Florida Statutes, to enhance the education of those Osceola County students attending these schools. The charter schools operate under a charter approved by their sponsor, the Osceola County District School Board. The charter schools are considered to be component units of the District since they are fiscally dependent on the District to levy taxes for their support and there is a potential for the charter school to provide specific financial benefits to, or impose specific financial burdens on, the District. Audits of the charter schools' financial statements are conducted by independent certified public accountants and are filed in the District's administrative office.

Basis of Presentation: Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from the governmental funds and internal service funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The effects of interfund activity have been eliminated from the government-wide financial statements except for interfund services provided and used.

Basis of Presentation: Fund Financial Statements

The fund financial statements provide information about the District's funds, including the fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

- <u>General Fund</u> to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- <u>Special Revenue Federal Economic Stimulus Program Funds</u> to account for certain Federal grant program resources related to the American Recovery and Reinvestment Act (ARRA).
- <u>Debt Service ARRA Economic Stimulus Fund</u> to account for the accumulation of resources for, and the payment of, long-term debt principal, interest, and fees related to Qualified School Construction Bonds.
- <u>Capital Projects ARRA Economic Stimulus Fund</u> to account for ARRA Federal grant resources to be used for educational capital outlay needs.
- <u>Capital Projects Other Fund</u> to account for other miscellaneous funds from various sources which are restricted for capital outlay purposes.

Additionally, the District reports the following proprietary and fiduciary fund types:

- Internal Service Funds to account for the District's individual self-insurance programs.
- <u>Agency Funds</u> to account for resources of the school internal funds which are used to administer moneys collected at the several schools in connection with school, student athletic, class, and club activities, and to account for the various resources of the Bellalago Charter Academy accounted for by the District.

During the course of operations the District has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in and out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicated the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditures are generally recognized when the related fund liability is incurred, as under the accrual accounting. However, debt service expenditures, claims and judgments, other postemployment benefits, and compensated absences, which are recognized when payment is due. General capital asset acquisition are reported as expenditures in governmental funds. Issuance of long-term debt and acquisition under capital leases are reported as other financing sources. Allocations of cost, such as depreciation, are not recognized in governmental funds.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

The charter schools, the Foundation for Osceola Education, Inc., and the Benefit Districts, are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, cash with fiscal agent, demand deposits, and short-term, highly liquid investments with original maturities of three months or less. Investments classified as cash equivalents include amounts placed with the State Board of Administration (SBA) in Florida PRIME, formerly known as the Local Government Surplus Trust Fund Investment Pool, and the Florida Education Investment Trust Fund (FEITF).

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits, except for cash dividends and interest held in an investment account, are insured by Federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

Investments

Investments consist of amounts placed in SBA Debt Service accounts for investment of debt service moneys, and amounts placed with the SBA for participation in Florida PRIME and Fund B Surplus Funds Trust Fund (Fund B) investment pools created by Sections 218.405 and 218.417, Florida Statutes, and those made locally. The investment pools operate under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in Florida PRIME and FEITF are similar to money market funds in which shares are owned in the fund rather than the underlying investments. The SBA and the FEITF indicate that the District's investments in the Florida PRIME and FEITF are Securities and Exchange Commission Rule 2a7-like external investment pool. These investments are reported at fair value, which is amortized cost.

The District's investments in Fund B are accounted for as a fluctuating net position value pool, with a fair value factor of 1.84438408 at June 30, 2014. Fund B is not subject to participant withdrawal requests. Distributions from Fund B, as determined by SBA, are effected by transferring eligible cash or securities to Florida PRIME, consistent with the pro rata allocation of pool shareholders of record at the creation date of Fund B. One hundred percent of such distributions from Fund B are available as liquid balance within Florida PRIME.

Investments made locally consist of United States Treasury Bonds, Federal Agency Bonds, and commercial paper and are reported at fair value. Types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

Inventories and Prepaid Items

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories held at the maintenance department, transportation department, central warehouse and for the District's food service program are stated at cost valued on a weighted-average basis, except that United States Department of Agriculture donated foods are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The District applies the consumption method to account for its inventories. As such, the expenditure for supplies inventory is recognized when the supplies are actually used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000 for tangible personal property and \$25,000 for real property. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| Description | Estimated Lives |
|---|-----------------|
| Improvements Other than Buildings | 8 - 40 years |
| Buildings, Fixed Equipment, and Educational Facilities Benefit District | 10 - 50 years |
| Furniture, Fixtures, and Equipment | 3 - 15 years |
| Motor Vehicles | 5 - 10 years |
| Audio Visual Materials and Computer Software | 3 - 5 years |

Current-year information relative to changes in capital assets is described in a subsequent note.

Deferred Outflows/Inflows of Resources

In addition to assets and liabilities, the statement of financial net position reports separate sections for deferred outflows and deferred inflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future periods(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time. Deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenues) until that time. The District has one item that qualifies for reporting in each of these categories, which is the deferred amount on debt refunding. A deferred amount on debt refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position. Debt premiums and discounts are deferred and amortized over the life of the debt using the effective interest method. Bonds and certificates of participation payable are reported net of the applicable premium or discount.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Changes in long-term liabilities for the current year are reported in a subsequent note.

Net Position Flow Assumption

The District occasionally funds outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. To calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. Consequently, it is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Fund Balance Flow Assumption

The District may fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). To calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when components of unrestricted fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board has by resolution authorized the Chief Business and Finance Officer to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

In addition, the District has adopted Board Rule 7.10 which establishes "contingency reserves" to help sustain the financial stability of the District during times of emergency spending for items such as disaster recovery and revenue shortfalls that could potentially occur after the current year's budget adoption. School Board Rule 7.10 requires an amount equal to 6 percent of the current year's annual estimated general fund revenues to be reserved for contingency purposes. The Superintendent shall obtain approval from the School Board if at any time it is projected that this balance will not be maintained.

Program Revenues

Amounts reported as program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

State Revenue Sources

Significant revenues from State sources for current operations include the Florida Education Finance Program administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of five months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. State Board of Education rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same educational programs. The Department generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the unencumbered balance of categorical and earmarked educational program resources.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

District Property Taxes

The School Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Osceola County Property Appraiser, and property taxes are collected by the Osceola County Tax Collector.

The School Board adopted the 2013 tax levy on September 3, 2013. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1, and are delinquent on April 1 of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Osceola County Tax Collector at fiscal year-end but not yet remitted to the District.

Millages and taxes levied for the current year are presented in a subsequent note.

Educational Impact Fees

Osceola County imposes an educational impact fee based on an ordinance adopted by the County Commission in 1992. This ordinance has been amended from time to time, most recently in August 2012, when Resolution No. 12-085R established the revised rates to be collected. The educational impact fee is collected for all new residential construction within the County. The fees are collected by the County and each municipality within the County based on an interlocal agreement. The fees can only be used for capital expenditures directly affected by new residential growth. Educational impact fee credits granted in exchange for land are shown in the government-wide financial statements as unearned revenue until the credits are used, at which time the revenues are recognized.

Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

Compensated Absences

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability for these amounts is reported in the governmental fund financial statements only if it has matured, such as for occurrences of employee resignations and retirements. The liability for compensated absences includes salary-related benefits, where applicable.

Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for employee health insurance premiums. Operating expenses include insurance claims and excess coverage premiums. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

2. ACCOUNTING CHANGES

The District implemented Governmental Accounting Standards Board (GASB) Statement No. 65, *Items Previously Reported as Assets and Liabilities*, effective for the 2013-14 fiscal year. This Statement established accounting and financial reporting standards that reclassify, as deferred outflows of resources or inflow of resources, certain items that were previously reported as assets and liabilities. GASB 65 also provides other financial reporting guidance related to the impact of the financial statements elements of deferred outflows of resources and deferred inflows of resources, such as changes in the determination of the major fund calculations and limiting the use of the term "deferred" in the financial statement presentations. Adoption of GASB 65 resulted in a change in net position of \$3,246,228 at the end of fiscal year 2013-14.

3. INVESTMENTS

As of June 30, 2014, the District has the following investments and maturities:

| Investment | Maturities | Fair Value |
|---|-------------------|-------------------|
| State Board of Administration (SBA): | | |
| Florida PRIME (1) | 40 Day Average | \$ 39,491,709 |
| Fund B Surplus Funds Trust Fund (Fund B)(2) | 2.86 Year Average | 240,334 |
| Debt Service Accounts | 6 Months | 422,169 |
| Florida Education Investment Trust Fund (1) | 51 Day Average | 5,123,612 |
| US Treasury Bonds | 1.91 Year Average | 59,603,448 |
| Federal Agency Bonds | 1.86 Year Average | 18,882,797 |
| Commercial Paper | 1.81 Year Average | 6,706,601 |
| Total Investments | | \$ 130,470,670 |

Notes:

(1) Investments classified as cash equivalents

(2) Includes \$21,389, which is being held under a trust agreement in connection with the

Certificates of Participation, Series 2002A.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

- The District's investment policy limits investments to a maximum of five years and the investment of current operating funds to no longer than two years.
- Florida PRIME had a weighted average days to maturity (WAM) of 40 days, and FEITF had a WAM of 44 days at June 30, 2014. A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes. Due to the nature of the securities in Fund B, the interest rate risk information required by GASB Statement No. 40 (i.e., specific identification, duration, weighted average maturity, segmented time distribution, or simulation model) is not available. An estimate of the weighted average life (WAL) is available. In the calculation of the WAL, the time at which an expected principal amount is to be received, measured in years, is weighted by the principal amount used in the WAL calculation are not discounted to present value as they would be in a weighted average duration calculation. The WAL, based on expected future cash flows, of Fund B at June 30, 2014, is estimated at 2.86 years. However, because Fund B consists of restructured or defaulted securities there is considerable uncertainty regarding the WAL. Participation in Fund B is involuntary.
- The District has \$6,273,892 in three obligations of Federal Home Loan Mortgage Corporation (Freddie Mac) that include embedded options consisting of the option at the discretion of the issuer to call their obligation or pay a stated increase in the interest rate. One security, for \$2,076,614 has a November, 13, 2014 call date and a November 13, 2015 maturity date. The second security, for \$2,075,261, has a September 30, 2014 call date and a December 30, 2015 maturity date. The third security, for \$2,122,016, has a March 27, 2015 call date and a March 27, 2017 maturity date.

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

- The District's investment policy allows for investments in certificates of deposit, time deposits, securities of the United States Government, other forms of authorized investments described in the Florida Statutes, and money market funds that are rated "AAAf", "AAm" or "AAm-G" or better by Standard & Poor's, or the equivalent by another rating agency.
- The District's investments in SBA Debt Service accounts are to provide for debt service payments on bond debt issued by the State Board of Education for the benefit of the District. The District relies on policies developed by SBA for managing interest rate risk and credit risk for this account.
- As of June 30, 2014, the District's investments in Florida PRIME and the FEITF are rated "AAAm" by Standard & Poor's. Fund B is unrated.
- As of June 30, 2014, the District's investments in U.S. Treasury and Federal Agency securities with PFM were rated AA+. The District's investments in commercial paper securities were rated A-1 (short-term) by Standard & Poor's.

Custodial credit risk is the risk of loss attributed to the failure of the depository bank.

Section 218.415(18), Florida Statutes, require the District to earmark all investments and (1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body's interest in the security; (2) if in a book entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any other State or territory in the United States which has a branch or principal place of business in the State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or (3) if physically issued to the holder but not registered with the issuer or its agents, must be immediately placed for safekeeping in a secured vault. The District's investments are held by a safekeeping agent, in the name of the District.

Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer.

The District's investment policy limits the amounts the District may invest in any one issuer, based on the type of instrument as follows:

| Florida Local Government Surplus Funds Trust Fund (SBA) | 50% |
|---|------|
| United States Government Securities | 100% |
| United States Government Agencies | 25% |
| Federal Instrumentalities | 40% |
| Interest Bearing Time Deposit or Savings Accounts | 33% |
| Repurchase Agreements | 25% |
| Commercial Paper | 10% |
| Bankers' Acceptances | 10% |
| Registered Investment Companies (Money Market Funds) | 35% |

Most of the District's investments are issued or explicitly guaranteed by the United States Government or are in external investment pools, which do not require disclosure for concentration of credit risk. Remaining investments are in compliance with investment policy limits.

As of June 30, 2014, more than 45 percent of the District's investment were in US Treasury Bonds, followed by Florida Prime at 30%, and Federal Agency Bonds at 15%. Federal Agency Bonds included investments in Federal National Mortgage Association (Fannie Mae), Federal Home Loan Bank Notes and Freddy Mac Global Notes, which were 6.0, 5.0 and 3.9 percent of total investments, respectively.

4. RECEIVABLES

The majority of receivables are due from other agencies. These receivables and the remaining accounts receivable are considered to be fully collectible. As such, no allowance for uncollectible accounts receivable is accrued.

Note (1): The Series 2010A Lease is designated as a "qualified school construction bond" as defined in Section 54F of the Internal Revenue Code, and pursuant to Section 6431 of the Code, the School Board has elected to receive federal subsidy payments on each interest payment date for the Series 2010A Certificates in an amount equal to the lesser of the amount of interest payable with respect to the Series 2010A Certificates on such date or the amount of interest which would have been payable with respect to the Series 2010A Certificates if the interest were determined at the applicable tax credit rate for the Series 2010A Certificates pursuant to Section 54A(b)(3) of the Code.

The District entered into a master financing arrangement on April 1, 1992, which arrangement was characterized as a lease-purchase agreement, with the Osceola School Board Leasing Corporation, Inc., whereby the District secured financing of various educational facilities. The financings were accomplished through the issuance of Certificates of Participation to be repaid from the proceeds of rents paid by the District.

As a condition of the financing arrangement, the District has given ground leases on District properties to the Osceola School Board Leasing Corporation, Inc., with a rental fee of \$1 per year. The properties covered by the ground leases are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the leases and to provide for the rent payments through to term, the District may be required to surrender the sites included under the various Ground Lease Agreements for the benefit of the securers of the Certificates for a period of time specified by the arrangement as follows:

| Certificates | Lease Term |
|---------------------|---|
| Series 2004A | Earlier of date paid in full or June 30, 2028 |
| Series 2004 B and C | Earlier of date paid in full or June 30, 2019 |

> QUALIFIED SCHOOL CONSTRUCTION BONDS

The District issued Certificates of Participation (COPs) dated April 29, 2010, under the Qualified School Construction Bond (QSCB) Program pursuant to Section 54F of the United States Internal Revenue Code of 1986 as amended (the Code). The QSCB Program provides for an issuer interest rate subsidy on certain bonds or COPs. The School District of Osceola County received an approved allocation of funds from the Florida Department of Education sufficient for the designation of the Series 2010A COP as a QSCB under the Code. Pursuant to Section 6431 of the Code, the District has elected to receive Federal subsidy payments (the Issuer Subsidy) from the United States Treasury on each interest payment date for the 2010A Certificates in an amount equal to the lesser of the amount of interest payable with respect to the Series 2010A Certificates if the interest were determined at the applicable tax credit rate pursuant to Section 54A(b)(3) of the Code. The tax credit rate which would have been applicable to the Series 2010A Certificates is 5.80 percent.

The Series 2010A Certificates were issued in the amount of \$40,500,000. Interest payments are to be made to the holders of the Certificates on April 1st and October 1st of each year at the stated coupon rate of 6.658 percent with the Issuer Subsidy received by the District on the same date. The principal amount of the Certificates is to be repaid in one lump sum on April 1, 2027. Beginning in 2013, the District is to deposit \$2,173,958 into a Sinking Fund annually on April 1st. The accumulated amount in this fund plus interest at a projected 3 percent is to be used to repay the principal amount of these certificates upon maturity.

The various bonds were issued to finance capital outlay projects of the District. The following is a description of the bonded debt issues:

State School Bonds

These bonds are issued by the State Board of Education on behalf of the District. The bonds mature serially, and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of Debt Service Fund resources, and compliance with reserve requirements are administered by the State Board of Education and the State Board of Administration.

District Revenue Bonds

The School Board issued Sales Tax Revenue Bonds, Series 2007A and 2007B on April 12, 2007, totaling \$47,580,000 and \$32,255,000, respectively. These bonds are authorized by Chapter 1001, Florida Statutes and Chapter 212, Part I, Florida Statutes. A resolution providing for the issuance of the bonds was adopted by the Board on March 20, 2007. Proceeds of the discretionary local government infrastructure sales tax surtax received by the District pursuant to an interlocal agreement between Osceola County, the cities of Kissimmee and St. Cloud, and the District are pledged for the payment of bonds. Proceeds of the 2007A bonds were used to finance the acquisition, construction, reconstruction, renovation, and equipping of certain capital improvements and educational facilities within the District. Proceeds of the 2007B bonds were used to advance-refund a portion of the District's outstanding Sales Tax Revenue Bonds, Series 2001.

The District has pledged a combined total of \$79,552,963 of discretionary surtax sales revenues (sales tax revenues) in connection with the Series 2007A and 2007B Sales Tax Revenue Bond issues described above. During the 2013-14 fiscal year, the District recognized sales tax revenues totaling \$10,600,770 and expended \$7,235,752 (68 percent) of these revenues for debt service directly collateralized by these revenues. The pledged sales tax revenues are committed until final maturity of the debt, or June 1, 2025. Assuming a nominal growth rate in the collection of sales tax revenues, which are levied through June 30, 2025, approximately 51 percent of this revenue stream has been pledged in connection with debt service on the revenue bonds.

Annual requirements to amortize all bonded debt outstanding as of June 30, 2014, are as follows:

10. DEFEASED DEBT

The Florida Department of Education issued \$1,796,000 Capital Outlay Refunding Bonds, Series 2014A, dated May 22, 2014, with an average interest rate of 4.27 percent, to refund callable portions of the District's State School Bonds, Series 2004A and Series 2005A. The Refunding Bonds are being issued to refund the \$861,000 principal amount of the District's State School Bonds, Series 2004A, that mature on or after January 1, 2024 and to refund the \$935,000 principal amount of the District's State School Bonds, Series 2005A, that mature on or after January 1, 2025.

The District's pro rata share of net proceeds totaling \$2,071,897 (after deduction of \$12,408 by the Florida Department of Education for the District's pro rata share of underwriting fees, insurance, and other issuance costs) were placed in an irrevocable trust to provide for future debt service payments. Of this amount, \$994,978 related to the Series 2004A bonds and \$1,076,919 related to the Series 2005A bonds. As a result, \$861,000 of the State School Bonds, Series 2001A and \$935,000 of the State School Bonds, Series 2001A are considered to be in-substance defeased and the liability for these bonds has been removed from the government-wide financial statements.

11. CHANGES IN LONG-TERM LIABILITIES

The following is a summary of changes in long-term liabilities:

| Description | Balance 7-1-13 | | Additions | Deductions | | Balance 6-30-14 | | Due in One Year | |

The District issues educational impact fee credits in exchange for land in connection with the construction of school facilities within the Bellalago Educational Facilities Benefit Districts (BEFBD) and Flora Ridge Educational Facilities Benefit District. Impact fee credits issued to the BEFBD are related to the K-8 portion of the educational impact fees authorized, while the FREFBD impact fee credits are related to the K-5 portion of the educational impact fees authorized. As of June 30, 2014 the balance of unused impact fee credits related to the BEFBD and FREFBD totaled \$4,115,431 and \$2,134,676 respectively.

For the governmental activities, compensated absences and other postemployment benefits are generally liquidated with resources of the General Fund.

In addition to committed and assigned fund balance categories discussed in the Fund Balance Policies note disclosures, fund balance may be classified as follows:

- Non-spendable Fund Balance. Non-spendable fund balance is the net current financial resources that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Generally, not in spendable form means that an item is not expected to be converted to cash. The District has inventory of \$3,226,549 classified as non-spendable.
- Restricted Fund Balance. Restricted fund balance is the portion of fund balance on which constraints have been placed by creditors, grantors, contributors, laws or regulations of other governments, constitutional provisions, or enabling legislation. Restricted fund balance places the most binding level of constraint on the use of fund balance. The District has a total of \$78,112,872 in restricted fund balance as of June 30, 2014.
- Unassigned Fund Balance. The unassigned fund balance is the portion of fund balance that is the residual classification for the general fund. This balance represents amounts that have not been assigned to other funds and that have not been restricted, committed, or assigned for specific purposes. As discussed in the Fund Balance Policies note disclosure, the District has set aside "contingency reserves" as per School Board Rule 7.10. The contingency funds of \$24,300,000 are included as part of the unassigned general fund balance of \$33,702,182.

13. OTHER POSTEMPLOYMENT BENEFITS PAYABLE

Plan Description. The Other Postemployment Benefits Plan (Plan) is a single-employer defined benefit plan administered by the District. Pursuant to the provision of Section 112.0801, Florida Statutes, employees who retire from the District, and eligible dependants, may continue to participate in the District's health and hospitalization plan for medical and prescriptions and life insurance coverage. The District subsidizes the premium rates paid by the retirees by allowing them to participate in the Other Postemployment Benefit (OPEB) Plan at the blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees. The District does not offer any explicit subsidies for retiree coverage. Retirees are assumed to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The OPEB Plan does not issue a stand-alone report, and is not included in the report of a public employee retirement system or another entity.

Funding Policy. Plan contribution requirements of the District and Plan members are established and may be amended through recommendations of the Insurance Committee and action from the Board. The District has not advanced-funded or established a funding methodology for the annual OPEB costs or the net OPEB obligation, and the OPEB Plan is financed on a pay-as-you-go basis. For the 2013-14 fiscal year, 402 retirees received other postemployment healthcare benefits, and another 465 retirees received only life insurance benefits. The District provided required contributions of \$2,052,068 toward the annual OPEB cost, net of retiree contributions totaling \$2,112,544, which represents 1 percent of covered payroll.

Annual OPEB Cost and Net OPEB Obligation. The District's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with parameters of Governmental Accounting Standards Board Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions.* The ARC represents a level of funding that if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The following table shows the District's annual OPEB cost for the year, the amount actually contributed to the OPEB Plan, and changes in the District's net OPEB obligation:

| Description | Amount | | | | |
|---|------------------|--|--|--|--|
| Normal Cost (service cost for one year) Amortization of Unfunded Actuarial | \$ 4,868,450 | | | | |
| Accrued Liability | 3,652,673 | | | | |
| Annual Required Contribution | 8,521,123 | | | | |
| Interest on Net OPEB Obligation | 1,597,890 | | | | |
| Adjustment to Annual Required Contribution | (1,736,837) | | | | |
| Annual OPEB Cost (Expense) | 8,382,176 | | | | |
| Contribution Toward the OPEB Cost | (2,052,068) | | | | |
| Increase in Net OPEB Obligation | 6,330,108 | | | | |
| Net OPEB Obligation, Beginning of Year | 39,947,251 | | | | |
| Net OPEB Obligation, End of Year | \$ 46,277,359 | | | | |

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation as of June 30, 2014 and the two preceding years were as follows:

| | | | | | Percentage Annual OP | | |
|-------------------|----|------------|----|-------------|-------------------------|----|---------------|
| | Ar | inual OPEB | | | Cost | | Net OPEB |
| Fiscal Year Ended | | Cost | Co | ontribution | Contribute | ed | Obligation |
| June 30, 2012 | \$ | 8,125,347 | \$ | 1,909,688 | 23.5% | | \$ 33,495,522 |
| June 30, 2013 | | 8,784,991 | | 2,333,262 | 26.6% | | 39,947,251 |
| June 30, 2014 | | 8,382,176 | | 2,052,068 | 24.5% | | 46,277,359 |

Funded Status and Funding Progress. As of January 1, 2014, the most recent valuation date, the actuarial accrued liability for benefits was \$82,380,018, and the actuarial value of assets was \$0, resulting in an unfunded actuarial liability of \$82,380,018. The covered payroll (annual payroll for active participating employees) was \$252,453,236, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 33 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the OPEB Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of OPEB Plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

<u>Actuarial Methods and Assumptions</u>. Projections of benefits for financial reporting purposes are based on the substantive OPEB Plan provisions, as understood by the employer and participating members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The District's OPEB actuarial valuation, as of January 1, 2014, used the entry age normal cost actuarial method to estimate the unfunded actuarial liability and to determine the annual required contribution as of June 30, 2014. Because the OPEB liability is currently unfunded, the actuarial assumptions included a 4 percent rate of return on invested assets, which is the District's long-term expectation of investment returns under its investment policy. The actuarial assumptions also included a payroll growth rate of 4 percent per year, projected salary increases of 4.5 percent to 8.38 percent, and an annual healthcare cost trend rate of 8 percent initially for the 2014 calendar year, reduced to an ultimate rate of 5.37 percent for the calendar year ending 2028. The investment rate and projected salary increases include an inflation rate of 3 percent. The unfunded actuarial accrued liability and gains/losses are being amortized as a level percentage of projected payroll on a closed basis over 30 years. The remaining amortization period at June 30, 2014, is 23 years.

14. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The following is a summary of interfund receivables and payables reported in the fund financial statements:

| | Interfund | | | | | | |
|---------------------------|-----------|------------|----------|-----------|--|--|--|
| Funds | R | eceivables | Payables | | | | |
| Major: | | | | | | | |
| General | \$ | 781,061 | \$ | 137,247 | | | |

| Federal Economic Stimulus | | - | | 298,992 | | | |
| Total | \$ | 1,628,066 | \$ | 1,628,066 | | | |

The interfund amounts represent temporary loans to cover expenditures incurred prior to reimbursement from outside sources. These amounts are expected to be repaid within one year.

The following is a summary of interfund transfers reported in the fund financial statements:

| Interfund | | | | | | |
|-----------|--------------|---|---|--|--|--|

The major transfers out of the Capital Projects funds were to provide debt service principal and interest payments and to assist in funding maintenance operations of the District. The transfer out of the Debt Service – Other Fund was for the return of sales tax revenues not needed for debt repayment. The remaining transfers between funds were operational in nature.

15. SCHEDULE OF STATE REVENUE SOURCES

The following is a schedule of the District's State revenue for the 2013-14 fiscal year:

| Source | Amount |
|---|-------------------|
| Florida Education Finance Program | \$ 198,916,148 |
| Categorical Educational Program - Class Size Reduction | 62,637,108 |
| Workforce Development Program | 6,205,435 |
| School Recognition Funds | 1,958,226 |
| Motor Vehicle License Tax (Including Capital Outlay and Debt Service) | 2,256,163 |
| Charter School Capital Outlay | 3,057,850 |
| Voluntary Prekindergarten Program | 2,172,197 |
| Food Service Supplement | 522,327 |
| Miscellaneous | 1,107,494 |
| Total | \$ 278,832,948 |

Accounting policies relating to certain State revenue sources are described in Note 1.

16. PROPERTY TAXES

The following is a summary of millages and taxes levied on the 2013 tax roll for the 2013-14 fiscal year:

| | Millages | Taxes Levied | | |

| Total | 7.509 | \$ | 132,114,473 | |

17. FLORIDA RETIREMENT SYSTEM

Essentially all regular employees of the District are eligible to enroll as members of the State-administered Florida Retirement System (FRS). Provisions relating to FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code, wherein eligibility, contributions, and benefits are defined and described in detail. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. These include a defined benefit pension plan (Plan), a Deferred Retirement Option Program (DROP), and a defined contribution plan, referred to as the Florida Retirement System Investment Plan (Investment Plan).

Employees participating in the Plan prior to July 1, 2011 vest at six years of credible service and employees enrolled in the Plan on or after July 1, 2011 vest at eight years of service. All vested members enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of credible service. Members of both Plans may include up to 4 years of credit for military service toward credible service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. District employees participating in DROP are not eligible to participate in this program. Employer and employee contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The Investment Plan is funded by employer and employee contributions that are based on salary and membership class (Regular, Elected County Officers, etc.). Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Employees in the Investment Plan vest at one year of service.

The rest of this page intentionally left blank.

The State of Florida established contribution rates for participating employers and employees. Contribution rates during the 2013-14 fiscal year were as follows:

| | Percent of Gross Salary | | | | |
|--|-------------------------|-----------------|--|--|--|
| Class or Plan | Employee | Employer (A) | | | |
| Florida Retirement System, Regular | 3.00 | 6.95 | | | |
| Florida Retirement System, Elected County Officers | 3.00 | 33.03 | | | |
| Florida Retirement System, Senior Management | 3.00 | 18.31 | | | |
| Teachers' Retirement System, Plan E | 6.25 | 11.44 | | | |
| Deferred Retirement Option Program - Applicable to | | | | | |
| Members from All of the Above Classes or Plans | 0.00 | 12.84 | | | |
| Florida Retirement System, Reemployed Retiree | (B) | (B) | | | |

Notes: (A) Employer rates include 1.20 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.03 percent for administrative costs of the Public Employee Optional Retirement Program.

(B) Contribution rates are dependent upon the retirement class or plan in which reemployed.

The District's liability for participation is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the District. The District's contributions, including employee contributions, for the fiscal years ending June 30, 2012, June 30, 2013, and June 30, 2014, totaled \$19,127,358, \$16,399,033 and \$18,848,023, respectively, which were equal to the required contributions for each fiscal year. There were 7,975 participants during the 2013-14 fiscal year.

The District's contributions, including employee contributions, to the Investment Plan totaled \$1,898,224. There were 1,396 participants in the Investment Plan during the 2013-14 fiscal year.

The financial statements and other supplementary information of FRS are included in State's Comprehensive Annual Financial Report, which is available from the Florida Department of Financial Services. An annual report on the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services, Division of Retirement.

18. CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS

Encumbrances. Appropriations in governmental funds are encumbered upon issuance of purchase orders for goods and services. Even though appropriations lapse at the end of the fiscal year, unfilled purchase orders of the current year are carried forward and the next year's appropriations are likewise encumbered.

The following is a schedule of encumbrances at June 30, 2014:

19. RISK MANAGEMENT PROGRAMS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Effective May 1, 2010, for Property Insurance and effective July 1, 2010 for all other Casualty and Workers' Compensation coverage, the School Board chose to leave the Florida School Boards Insurance Trust (FSBIT) program and implement a standalone program of self-insurance and insurance as recommended by the Board's Broker, Arthur J. Gallagher Risk Management Services.

The Board has established the Osceola County School Board Group Health and Life Insurance Trust to provide for a health, hospitalization, and life insurance program. These programs are accounted for in the District's Internal Service funds. The program is on a self-insured basis up to specified limits. The District did not elect to purchase the aggregate stop-loss coverage due to the rising premium cost and the high attachment point. The District elected to continue coverage for a specific stop-loss for any one claim of \$550,000. The Board has contracted with a professional administrator to administer the self-insurance program, including the processing, investigating, and payment of claims. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. A liability in the amount of \$4,214,000 was actuarially determined to cover estimated incurred, but not reported, insurance claims payable for the group health program at June 30, 2014.

Effective July 1, 2003, the District's general liability and auto liability programs were established on a self-insured basis. These programs are administered by the Trust and are accounted for in the District's internal service funds. The program administrator held prefunded cash deposits of \$40,143 at June 30, 2014, which the District reports as cash with fiscal agent in the internal service funds. A liability of \$14,475 was established based on reserves for outstanding claims at June 30, 2014, as reported by the program administrator.

The following schedule represents the changes in claims liability for the past two fiscal years for the District's self-insurance programs:

| Fiscal Year | Beginning-of Fiscal-Year Liability | Claims and Changes in Estimates | Claims Balance at Payments Fiscal Year-End | | |
|--------------------|--|---------------------------------------|--|----|------------------------|

* Financial Guaranty Insurance Company ("FGIC") provided the financial guaranty insurance policy for these issues. Effective September 30, 2008, FGIC and MBIA Insurance Corporation ("MBIA") executed the Reinsurance Agreement (the "Reinsurance Agreement") pursuant to which MBIA agreed that, as long as the Reinsurance Agreement was in place, it would pay in accordance with covered FGIC policies, including municipal bond insurance policy with respect to this issue. On February 18, 2009, MBIA announced that it has transferred its public finance portfolio, including all of MBIA's rights, interests and obligations under the Reinsurance Agreement, to MBIA Insurance Corp. of Illinois, which has since been renamed National Public Finance Guarantee Corporation.

** Formerly known as Financial Security Assurance Inc.

*** MBIA provided the financial guaranty insurance policy for this issue. On February 18, 2009, MBIA announced that it had transferred its public finance portfolio, including the policy with respect to this issue, to MBIA Insurance Corp. of Illinois, which has been renamed National Public Finance Guarantee Corporation.

21. LITIGATION

OSCEOLA COUNTY DISTRICT SCHOOL BOARD NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2014

1. BUDGETARY COMPLIANCE AND ACCOUNTABILITY

The Board follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds, as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.
- The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund-function level. The Board made several supplemental budgetary appropriations throughout the year. Supplemental budgetary appropriations are presented in budget and actual comparison statements by original budget and final budget amounts and discussed in the Management's Discussion and Analysis (MD&A).

2. SCHEDULE OF FUNDING PROGRESS – OTHER POSTEMPLOYMENT BENEFITS

The District is required to perform periodic actuarial valuations of its postemployment benefits other than pensions. For the January 1, 2014, valuation, the following key assumptions were modified to reflect current experience: (1) the cost of coverage per OPEB Plan member increased with no increase in the premiums required from retirees; (2) populations of both retirees and active employees increased; (3) trend rates for medical and prescription costs increased; (4) rates of retiree participation once eligible for Medicare were revised; and (5) certain demographic assumptions were revised to reflect the changes made by the Florida Retirement System in its July 1, 2013 actuarial valuation.

Note: Property Taxes become due and payable on November 1st of each year. A four percent (4%) discount is allowed if taxes are paid in November, with the discounts declining by one percent (1%) each month thereafter. Accordingly, taxes collected will never be 100% of the tax levy. Taxes become delinquent on April 1st of each year and tax certificates for the full amount of any unpaid taxes and assessments must be sold no later than June 1st of each year.

| Total direct and overlapping debt | | | | \$ 692,252,986 |

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the County. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Osceola County. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and therefore responsible for repaying the debt, of each overlapping government.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL **REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN** AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH **GOVERNMENT AUDITING STANDARDS**

Chairman and Members of The District School Board of Osceola County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District School Board of Osceola County, Florida (the "District") as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated February 23, 2015. Our report includes a reference to other auditors who audited the financial statements of the agency funds and aggregate discretely presented component units, as described in our report on the District's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Chairman and Members of The District School Board of Osceola County, Florida

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Pursuant to provisions of Chapter 10.800, *Rules of the Auditor General*, we reported certain matters to management of the District in a separate management letter and Independent Accountant's Report dated February 23, 2015.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY OMB CIRCULAR A-133

Chairman and Members of The District School Board of Osceola County, Florida

Report on Compliance for Each Major Federal Program

We have audited the compliance of the District School Board of Osceola County, Florida (the "District") with the types of compliance requirements described in the U.S. Office of Management and Budget ("OMB") Circular A-133 *Compliance Supplement*, that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2014. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Chairman and Members of The District School Board of Osceola County, Florida

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance with a type of compliance control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the basic financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated February 23, 2015, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. Our report on the basic financial statements included disclosures regarding our reference to the reports of other auditors. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis, as required by OMB Circular A-133, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

Chairman and Members of The District School Board of Osceola County, Florida

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133 (Cont.)

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

INDEPENDENT AUDITOR'S MANAGEMENT LETTER

Chairman and Members of The District School Board of Osceola County, Florida

Report on Financial Statements

We have audited the financial statements of the District School Board of Osceola County, Florida (the "District") as of and for the year ended June 30, 2014, and have issued our report thereon dated February 23, 2015.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*; and Chapter 10.800, *Rules of the Auditor General*.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on a Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditor's Report on Compliance for Each Major Federal Program and on Internal Control over Compliance and Report on the Expenditure of Federal Awards Required by OMB Circular A-133, Schedule of Findings and Questioned Costs; and our Independent Accountant's Report in accordance with the provisions of Chapter 10.800, *Rules of the Auditor General*. Disclosures in those reports and schedule, which are dated February 23, 2015, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.804(1)(f)1., *Rules of the Auditor General* requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial report. In conjunction with our audit, the District took corrective action on all findings identified in the preceding annual financial report and on all findings identified in the second preceding annual financial report.

Financial Condition

Section 10.804(1)(f)2., *Rules of the Auditor General* requires a statement be included as to whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of specific condition(s) met. In conjunction with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Financial Condition (Cont.)

Pursuant to Sections 10.804(1)(f)5a. and 10.805(6), *Rules of the Auditor General*, we applied financial condition assessment procedures. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based, in part, on representations made by management and the review of financial information provided by the same. The assessment was prepared as of fiscal year end.

Transparency

Section 10.804(1)(f)6., *Rules of the Auditor General*, requires the auditor to state whether or not the District complied with transparency requirements (Section 1011.035, Florida Statutes, provides that district school boards include a plain-language version of each proposed, tentative and official budget that describes each budget line item in terms that are easily understandable to the public). In conjunction with our audit, we determined that the District complied with transparency requirements.

Other Matters

Section 10.804(1)(f)3., *Rules of the Auditor General*, requires that we address in the management letter any recommendations to improve financial management. In conjunction with our audit, we had the following recommendation:

MLO 2014-001 RECONCILIATION OF CERTAIN GENERAL LEDGER ACCOUNTS

Condition

During our audit, we noted several variances between our calculations and the amounts reported on the District's balance sheet and statement of net position. None of these variances were deemed significant. Upon identification, management made corrections for these variances so that as of June 30, 2014, the changes would be reflected in the District's financial statements.

Criteria

The District's financial reporting process should include a careful review of year-end reconciliations to ensure that any variances identified are corrected.

Cause

The condition appears to primarily be the result of turnover in the District's Finance Department personnel.

Effect

While not significant to the financial statements, unadjusted variances can cause confusion when comparing amounts reported in the financial statements to the supporting documentation.

Recommendation

We recommend that management review its year-end reconciliation procedures for balance sheet accounts to ensure that any variances identified through the reconciliations are corrected. In addition, we recommend that management ensure that its new accounting personnel are properly trained and aware of their responsibilities regarding year-end procedures.

MLO 2014-001 RECONCILIATION OF CERTAIN GENERAL LEDGER ACCOUNTS (Cont.)

Management Response

Management recognizes there were variances identified through the auditor's reconciliation process. These were the result of staff members posting adjusting entries to the general ledger after the trial balance was provided to the audit staff. The District's staff has acclimated to their new role and understands the importance of timely posting adjusting entries to avoid confusion when preparing financial statements. The prescribed deadlines in the District's closing process will be reiterated with staff to avoid such confusion.

Section 10.804(1)(f)4., *Rules of the Auditor General*, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In conjunction with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the District School Board members, and applicable management and is not intended to be, and should not be, used by anyone other than these specified parties.
