Students will be taking the NWEA MAP Growth test in Science, Reading and Math. This test helps teachers understand what students know today, so goals can be set to improve growth throughout the year. Students cannot pass or fail this test. This test will not affect grades. In fact, it's normal for students to only answer about half the questions correctly. **If your student is taking it at home, please don't help them!** These test results will help us know what students are ready to learn.
