In addition, we were able to meet our growth goals in 4th Grade ELA and 5th Grade Science. We have put corrective reading in place for our below grade level students in grades 3-5 and Open Court implementation in grades K-2. These instructional models have provided us with good growth data. Monthly collection of student writing samples from K-5 are showing improvement and the majority of students are approaching grade level expectations in writing. When comparing our mid-year data to all 26 K-5 schools in our district, Lakeview rates 5th in ELA, 8th in Math and 9th in Science.
