

# Immunization Requirements For the 2024 – 2025 School Year

K.A.R. 28 -1 -20 defines immunization required for any individual who attends school, or a childcare program operated by a school. Below are the requirements for the indicated school year. Please carefully review the requirements. The usual number of doses required are listed; however, there are exceptional circumstances that could alter the number of doses a child needs. If you have questions about your child's immunization status, contact your child's primary care provider or local health department.

**Proof of receiving the required immunizations must be provided to the school prior to the student attending the first day of school.**

## Notes

\* Varicella (chickenpox) vaccine is not required if child has had chickenpox disease **and** disease is documented by a physician signature. Without a physician signature, vaccine is required even if you believe your child has had chickenpox disease.

\*\* Total doses needed is dependent on the type of vaccine administered and the age of the child when doses given.

\*\*\* All students in grades K – 5, all new students and students currently completing the polio series must have 6 months between the last 2 doses of polio vaccine, and one dose must be after the 4<sup>th</sup> birthday.

~ All students in grades 7 – 12 are required to have one dose of Tdap regardless of the interval since the last dose of DTaP or Td.
